

# Boone County Master Gardeners

## Grant Application

**Proposal Guidelines:** BCMG offers grants to residents of Boone County for projects that further the purpose of the Purdue Master Gardener Program.

The grant awards typically range from \$100 to \$250. Each grant request is considered on its own merit for either full or partial funding.

Education is an important component of the Master Gardener Program's mission, be sure that your project includes this in some way.

Possible suggestions include signage, plant labels, on site interpreter, flyers, a presentation, or a class project.

Grant applications are due by November 30, 2021

Grants will be awarded and presented in January, 2022

A final report is due within one month of the completion of the project (as stated in the project timeline).

**Project Title:**

**Name and address of your organization:**

**Contact Person:**
